

PRODUCT SPECIFICATIONS		
Diameter	40mm (1.60 in)	
Length	102mm (4 in)	
Projectile Count	1	
Velocity	100 m/s (325 fps)	
Minimum Safe Distance¹	1.5m (5 ft)	
Maximum Effective Distance	36.6m (120 ft)	
PROJECTICLE SPECIFICATIONS		
Material	Polyurethane	
Height	73mm (3 in)	
Diameter	40mm (1.6 in)	
Weight	24 grams (1.0 oz)	
Payload Weight	2 grams Marking Powder	
Part Number	ALS4006DM	
Warranty	5 years from date of manufacture	
<p>1 – When using this round at or near the minimum safe distance, the operator must evaluate the totality of circumstances (i.e. judgment, discretion, common sense) in relation to officer factors/judgment (i.e. subject factors, environmental factors, unknown factors, etc.) to determine whether or not deploying the round is appropriate for the situation.</p>		
PRODUCT DESCRIPTION		
<p>The ALS4006DM REACT round is a direct fire round designed to combine blunt trauma pain compliance with Marking signature, Inert Powder upon impact. It is highly accurate and effective across a broad range of distances.</p> <p>The round is most effective when used within the optimal range of 2-40 yards. Operators should be well trained in the use of Less Lethal munitions regarding shot placement including, but not limited to, factors such as: level of threat, target distance, and clothing. The optimal range allows for accurate targeting of the large muscle groups of the subject providing sufficient pain stimulus while greatly reducing the risk of serious or life-threatening injuries.</p>		
SHIPPING INFORMATION		<p>WARNING: This round should only be used by individuals properly trained in the use of specialty impact munitions. Serious injury or death may occur if this product is misused in rare or unexpected instances. Individuals should only engage appropriate target areas.</p>
UN Number	UN00452	
Proper Shipping Name	Grenades, practice, hand or rifle	
Hazard Class	1.4G	
Quantity per package	24	
Total package weight	3 kg (6 lb.)	
Package type	4G Cardboard Box
