| Velocity                | 275 fps (83 m/s)          |
| Maximum Effective Range | 75 feet (25 m)            |

## Projectile Specifications

|                   |                              |
|-------------------|------------------------------|
| Bag Material      | Cotton-Ballistic Fiber Blend |
| Bag Fill Material | #9 Lead Shot                 |
| Height            | 5 in (127 mm)                |
| Diameter          | 0.8 in (127 mm)              |
| Weight            | 40 grams                     |
| Part No.          | ALS1212T                     |
| Warranty          | 5 Years                      |

**IMPACT MUNITION**

## PRODUCT DESCRIPTION

The ALS1212T is a 12ga stabilized bean bag munition that is designed to produce blunt trauma and pain compliance. The bean bag is designed for exceptional flight ballistic stability to provide accuracy from smooth bore shotguns. It is recommended the operator attend an ALS less-lethal instructor training course to better understand product performance and injury potential.
