# VXR LIVE-MAXX™

The VXR Live-MAXX projectile offers greater distance and accuracy when compared to a standard round ball projectile. Exclusive MAXSAICIN process means more PAVA stays airborne, increasing bio-availability and effectiveness. Best suited for direct impact, area saturation and crowd control situations.

**Available Color Options:**

**SPECIFICATIONS**

Weight	Caliber	Payload	Shelf Life	Velocity	Direct Impact	Saturation	Kinetic Impact
3.4g	.68 X .72	2.5g	3 Years	280-425 FPS	150ft	390+ft	8.8-20.6ft lb/12-28J

**FEATURES**

- Exclusive MAXSAICIN process means more PAVA stays airborne, increasing bio-availability and effectiveness
- Ultrasonically Welded
- Spin Stabilized
- Shell Color Indicates Payload
- 100% Waterproof and Non-flammable
- Operational Temperature of -30°F to 150°F

**FORMULA**

- MAXSAICIN PAVA Powder

**QUANTITIES**

- Pack: 50
